EXPERIENCE

▶ **Frontend Developer**   Mar 2022 - Present
Ninus Design & Technology

- Web design and implementation of functionalities of the interaction with the client using the React.js library.
- Consumption of REST APIs to obtain information from the Backend.
- Debugging and testing of the developed functionalities.

PROJECTS

▶ **Personal Website**   React.js   SCSS

This is my personal website or portfolio where I show the projects I have done around Frontend Development.

▶ **Tomato Time**   HTML   CSS   JavaScript

With this application you can track your concentration time, using the Pomodoro technique, which can be customized to your needs.

▶ **FitApp**   HTML   CSS   JavaScript   Firebase

This app can help you track your weight, BMI, muscle mass percentage and water percentage.
